Year 6 Summer 2 Newsletter

Welcome back to the final half term of the year!

Our learning this half term is based around the global theme ***Our World and Beyond***.

We will continue with our geography topic: '*Where in North and South America would you choose to settle?*'

In **English**, we will be thinking about 'Our World and Beyond' and writing a letter about the importance of looking after our planet. We will also be writing a fantasy narrative, relating to a video called 'Something Fishy'.

A massive well done is in order for everyone who worked so well during our SATs week. Our main focus now shifts to continuing to make progress in our writing, deepening our wider curriculum learning (such as geography) and preparing for the show at the end of the year!

- In our **Maths** lessons, our focus will be revising and deepening understanding by applying knowledge to real world scenarios. **Please continue to support your child at home by learning the multiplication and division facts for all tables up to 12 x 12.**
- In our **Geography** lessons, we will be discovering the wonders of South America by exploring the physical and human features of the region.
- In **Science**, we will be completing our unit all about the cardiovascular system.
- In **Computing**, we will be learning about programming and applying this to the use of micro-bits.
- During **RE**, we will be discussing the question 'What do religions say to us when life gets hard?'
- In **DT**, we will be creating a traditional South American recipe.
- In **PSHE**, we will be learning about looking after our bodies' physical and mental health.
- In **Music**, we will be learning our show songs.
- In **Physical Education**, we will focus on **cricket and outdoor adventure team building activities**.

Homework

For the first few weeks, we will be asking the children to learn the lines for the show and songs. Following this, there will be some code breakers to complete related to Maths and English.

Kind regards,

Mr Burrows
