

Dear Parents/Carers

This half term, our class will be considering the overall question ‘**How much did the Ancient Greeks do for us?**’ and enjoying our new text: **Leo and the Gorgon’s Curse**. We are really looking forward to reading this together over the half term.

To extend the children’s learning further, we would like to continue with our home learning projects. They could:

- Create a visual representation of what keeps them healthy (photo of them doing a sport or movements and writing about it).
- Present their own research on the ancient Greeks (such as Greek gods, Greek mythology or the ancient Olympics and so on) by creating a structure or story board.
- Apply their knowledge of clay sculpture from creating clay pots in class to create other sculptures of their own choosing using air drying clay.

The above are just a few examples and your child could come up with their own exciting idea. Above all, we would like the children to enjoy independent learning in any way they choose and be creative!

Children can present the information they research in any way they wish but there should just be one outcome each which shows what they have learnt about from their research.

The aim of the home learning project is to spend a little time each week working on the project and bring the result into school on **Monday 8th June 2026**. On **Tuesday 9th June 2026**, straight after school, parents are invited into the school hall, where projects from all classes will be displayed for you to see in a ‘Homework Showcase’.

We are asking parents to spend time with your child sharing in the preparation and planning, talking together about what they are doing and providing encouragement and support.

We really hope you will enjoy working together and extending your child’s learning at school further.

Yours sincerely,

Miss Jerram
