

Class 2 Summer 1 Homework Project

Dear Parents,

This half term our class will be thinking about the key question, 'How different is Pointe-À-Pierre to London?'

This term, our learning will revolve around the key question. We will look to do this in a number of subjects; in English we will be writing a short story all about London and in Geography we will be looking at the human and physical geography of London.

To extend the children's learning further, we are continuing home learning projects. This home style of learning aims to:

- Provide opportunities for children to be creative and choose how they record.
- Provide opportunities for children to work independently on self-study.
- Enable children to research an area of knowledge linked to the topic which interests them.

To extend the children's learning further they could:

- Create a tri or diorama on the landmarks in London.
- Crate an informative poster about one of the landmarks in London.
- Draw a picture of the landmarks in London.

But overall, enjoy independent learning in any way they choose.

Children can present the information they research in any way they wish but there should just be **one outcome each**, which shows what they have learnt about from their research.

The aim of the home learning project is to spend a little time each week over the next few weeks working on the project and bring the end result into school on **Monday 16th June**

2025. We will then put the projects on display for everyone to share on **Tuesday 17th June 2025.**

We are asking parents to spend time with their children, assisting with the preparation and planning of the project, whilst discussing what they are learning and providing encouragement throughout.

We really hope you will enjoy supporting your child extend their learning at school further.

Yours sincerely,

Miss Abbott
